**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm writing in support of the broadband competition. As a previous customer of AT&T the service provided by larger companies are totally unfair if they are the only option. They have proven they are only interested in profits. They care very little about providing quality service and slow down broadband whenever they chose.

The public needs other options and competition in the marketplace. In a world where internet access is so vital having competitive options are very important and help to control cost.

Please help stop the continuing higher cost of a vital part of life for those who are struggling to survive and trying to stay connected.
